

Kubeangles (Interview Experience)

Round #	Name of the Round	Description
1	Online Test	It was conducted in the department computer labs. We had to answer 30 multiple choice questions in 30 minutes . Types of Questions Asked: Quantitative Reasoning, Verbal and Non-verbal Reasoning, Data Structures, Basic Programming Questions, Data Interpretation, Computer Fundamentals, et cetera.
2	Group Discussion	There were a total of 8 members in the group. Topic: Technology leads to Unemployment. We were given a minute to prepare. The discussion went on for 10 minutes . After that everyone was given 15 seconds to summarize and conclude the discussion.
3	Programming Test	Two basic programming problems were asked. We had 30 minutes to code both the problems. Afterwards we had to run and explain our code to one of the evaluators. 1. Find the GCD of two given numbers. (https://www.geeksforgeeks.org/program-to-find-gcd-or-hcf-of-two-numbers/) 2. Program to calculate the value of sin(x). (https://www.geeksforgeeks.org/program-to-calculate-the-value-of-sinx-and-cosx-using-expansion/)
4	HR Round	Results were announced before this round. This was more of a get to know about each other kind of round. No specific questions were asked.

Remarks	1. The hiring method was very unconventional. 2. The candidates were evaluated throughout the process which took two whole days to complete. 3. Even the founder, CEO, CPO and COO of the company had come for the process.
